- Old rifle upgrades

ACCURACY INTERNATIONAL - AI

- Accuracy International - AI
- Accuracy International has supplied over 20,000 sniper rifles to over 60 countries worldwide.
- The current designs faithfully follow the original concepts but also benefit from thirty years of continuous improvement, driven solely by the needs of users, highly trained military and police units in over 60 countries worldwide.

In November 2009, a British sniper gained a Guinness World record for distance precision shots using an Accuracy International .338 LM sniper rifle.
